募集要項

- Support technical consultants by validating newly built IT environments and ensuring proper configurations.
- Maintain and update internal documentation and training materials as systems evolve.

Client Details

A global IT solutions provider specializing in infrastructure, cloud, and security services. With a strong presence in Japan and a growing international team, the company delivers cutting-edge technology solutions to enterprise clients worldwide. Their focus on innovation and quality makes them an ideal workplace for IT professionals looking to grow in a collaborative environment.

Description

- Verify and validate system configurations by accessing environments and running checks.
- Troubleshoot and resolve configuration issues, collaborating with technical teams in English when necessary.
- Update internal documentation and training materials as needed.

Job Offer

- Flexible, remote-first work environment with occasional office visits.
- Exposure to global IT operations and industry best practices.
- Opportunities to develop technical expertise while working with an international team.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Argia Pradana at +81 3 6832 8642.

スキル・資格

- Experience with Linux/Windows installations, upgrades, and troubleshooting.
 - Basic networking knowledge and familiarity with SaaS configuration.
 - Ability to modify and run Python scripts.
 - Strong documentation skills using Excel, Word, and PowerPoint.
