募集要項

The Distribution Operation Associate will play a critical role in our Life Science logistics department, ensuring the smooth and efficient distribution of our products.

Client Details

Our client is a global giant in the Life Science industry. With their large organization spread across multiple continents, they are dedicated to improving lives through innovative solutions.

Description

- Oversee the logistics processes that enable and optimize the physical distribution of materials, products and information flow from point of supply to end customer.
- Responsible for enabling a smooth distribution operation within the market, focusing on service & process enablement and customer satisfaction.
- Key responsibilities include inbound and outbound transportation, distribution, warehousing and fulfilment, import, forwarding, customs and 3rd party logistics and governance of these functions.
- Other responsibilities may include: Oversee the order fulfillment process for local Japan distribution, ensuring timely and accurate delivery of products. Replenishment stock and manage inventory level in the warehouse, ensuring

inventory accuracy and security with proper procedures and processes. Purchasing goods from local suppliers.

Job Offer

- Comprehensive insurance package.
- A collaborative and inclusive company culture that values innovation and hard work.
- Opportunities for professional growth within a well-established Life Science company.

If this sounds like the opportunity you have been looking for, we encourage you to apply today and join our team in the Life Science industry.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Maribeth Mockovak on +XX XXXX XXXX (NS phone number)

スキル・資格

A successful Distribution Operation Associate should have:

- A degree in Business Administration, Logistics, or a related field.
- 3-5+ years of working experience in SCM, 3PL or distribution related field
- Strong analytical skills to quickly read data presented from either Oracle or Excel
- Fluent Japanese, Business English level (Need to work with global team)
