### 募集要項

- Preventive Maintenance: Conduct scheduled inspections and maintenance tasks on machinery and equipment to prevent breakdowns and ensure optimal functioning.
- Troubleshooting & Repairs: Respond to equipment failures and breakages promptly. Identify issues, make necessary repairs, and restore equipment to operational status as quickly as possible.
- Equipment Optimization: Monitor system performance, identify inefficiencies, and suggest/implement improvements for increased reliability and efficiency.
- Documentation & Record-Keeping: Maintain accurate records of maintenance activities, repairs, spare parts inventory, and equipment status. Ensure compliance with safety and regulatory standards.
- Collaboration & Coordination: Work with production teams, contractors, and suppliers to ensure timely repairs, upgrades, and the proper operation of equipment.
- Compliance & Safety: Ensure adherence to health and safety regulations, maintain safe working conditions, and assist in audits and inspections.

- Technical Support & Guidance: Provide technical support and advice to other departments, assisting with machine setups or technical challenges.
- Emergency Response: Participate in emergency response protocols for critical breakdowns or safety incidents.
- Continuous Improvement: Assist with the identification of root causes of equipment failure and work on process improvements to minimize reoccurrence.
