募集要項

This opening is for a BI Manager role that focuses on Digital Analytics & Business Intelligence within the Pharmaceutical industry. The ideal candidate should be proficient in sales, have a knack for analytics, and possess a deep understanding of business intelligence.

Client Details

The hiring company is a mid size, well known Pharma company, based in Tokyo. Renowned for its commitment to innovation and excellence, the company maintains an engaging, growth-oriented environment for its employees.

Description

- Lead the development and execution of digital analytics and business intelligence strategies.
- Drive data-driven decision making within the sales department.
- Collaborate with various teams to identify opportunities for process improvement.
- Manage and maintain digital analytics tools and platforms.
- Ensure the accuracy and consistency of data reporting.
- Present findings and insights to stakeholders to drive business decisions.
- Contribute to the development of sales strategies.

- Stay updated with the latest trends and developments in digital analytics and business intelligence.

Job Offer

- A challenging and rewarding role in a reputable Pharmaceutical Company
- A supportive work environment with growth opportunities.
- Competitive benefits package.
- Based in the vibrant city of Tokyo.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Nalisala Karnnganunvichit on +81 3 6832 8650.

スキル・資格

A successful BI Manager, Digital Analytics & Business Intelligence, should have:

- Advanced knowledge in digital analytics and business intelligence.
 - A strong background in sales and experience in the life science industry.
 - Proficiency in data analysis tools and platforms.
 - Exceptional communication skills to present data-driven insights.
 - Ability to work collaboratively and drive decision making.
-
