募集要項

Seeking a passionate and knowledgeable senior project manager for a temporary position within the Technology department in the Retail industry, based in Tokyo. The ideal candidate will possess strong technical knowledge and the ability to effectively manage projects.

Client Details

Our client is a multinational corporation in the IT sector, with operations in numerous countries. They have a broad scope in the industry, ranging from e-commerce to digital content and communications. This large organization cultivates an environment that encourages innovation and recognizes the power of collective intelligence.

Description

- Managing and coordinating technology projects across the IT sector
- Liaising with stakeholders to understand and implement project requirements
- Ensuring deliverables are achieved within the agreed timeframe and budget

- Overseeing project risk management and quality control
- Facilitating communication within the project team and across relevant departments
- Tracking project performance and providing regular updates to senior management
- Driving continuous improvement and innovation in project management practices
- Adhering to company policies and industry regulations throughout project execution
