# 募集要項

Seeking a passionate and knowledgeable senior project manager for a temporary position within the Technology department in the Retail industry, based in Tokyo. The ideal candidate will possess strong technical knowledge and the ability to effectively manage projects.

## **Client Details**

Our client is a multinational corporation in the IT sector, with operations in numerous countries. They have a broad scope in the industry, ranging from e-commerce to digital content and communications. This large organization cultivates an environment that encourages innovation and recognizes the power of collective intelligence.

## Description

- Managing and coordinating technology projects across the IT sector
- Liaising with stakeholders to understand and implement project requirements
- Ensuring deliverables are achieved within the agreed timeframe and budget

- Overseeing project risk management and quality control
- Facilitating communication within the project team and across relevant departments
- Tracking project performance and providing regular updates to senior management
- Driving continuous improvement and innovation in project management practices
- Adhering to company policies and industry regulations throughout project execution
