募集要項

This temporary position seeks an Oracle EBS Business Analyst who will be instrumental in bridging the gap between business requirements and technology solutions within the Life Science industry.

Client Details

Our client is a large organization within the Life Science industry. They are renowned for their innovative approach to technology and are constantly pushing the boundaries in their quest to improve human health.

Description

- Analyzing and documenting business processes in relation to technology needs.
- Developing solutions for the Oracle EBS system based on the needs of the business.
- Implementing and testing system improvements and enhancements.
- Providing technical support and training to users of the Oracle EBS system.
- Working closely with other members of the technology team to ensure system integration.
- Participating in project planning and execution.
- Maintaining up-to-date knowledge of Oracle EBS system developments and trends.
- Contributing to the overall success of the technology team and the larger organization.

Job Offer

Competitive salary

応募は、以下の応募ボタンからお願いします。詳細につきましては、Maika Endoにお問い合わせください+81357337160。

スキル・資格

- A strong understanding of Oracle EBS systems and business process analysis.
 - Proven ability to implement and test system improvements and enhancements.
 - Excellent communication skills, both written and verbal, to effectively relay technical information to non-technical individuals.
 - Strong problem-solving skills and the ability to work well in a team-oriented environment.
