## 募集要項

This temporary position seeks an Oracle EBS Business Analyst who will be instrumental in bridging the gap between business requirements and technology solutions within the Life Science industry.

## Client Details

Our client is a large organization within the Life Science industry. They are renowned for their innovative approach to technology and are constantly pushing the boundaries in their quest to improve human health.

## Description

- Analyzing and documenting business processes in relation to technology needs.
- Developing solutions for the Oracle EBS system based on the needs of the business.
- Implementing and testing system improvements and enhancements.
- Providing technical support and training to users of the Oracle EBS system.
- Working closely with other members of the technology team to ensure system integration.
- Participating in project planning and execution.
- Maintaining up-to-date knowledge of Oracle EBS system developments and trends.
- Contributing to the overall success of the technology team and the larger organization.

## Job Offer

Competitive salary
