募集要項

We are seeking an SCM Import Operation Specialist with a passion for logistics in the life science industry. The ideal candidate will have a strong understanding of import operations and regulations.

Client Details

Our client is a globally recognized, large organization in the life science industry. They are known for their innovative solutions and commitment to improving healthcare worldwide.

Description

The Import Operation Specialist will be a member of the Operation Department and will be responsible for a wide range of tasks, from import operations for dental medical products and related parts (materials) to delivery date responses and inventory management.

- International air cargo status management Negotiate with major international logistics companies and manage international logistics operations to ensure delivery delays.
- Import customs clearance management Share necessary information with major customs brokers in a timely manner

and manage import customs clearance to be carried out smoothly.

- Delivery date response Respond to delivery date inquiries from internal customers. If necessary, confirm shipping schedules with overseas manufacturers
- Inventory management Regularly review and analyze inventory to avoid overstocking, and share the results with the Global team
- Project Management Participate in cross-departmental internal projects.

Job Offer

- Competitive salary
- Comprehensive benefits package including insurance.
- Opportunity to work in a globally recognized organization in the life science industry.
- Collaborative and innovative company culture.

If you are a passionate SCM Import Operation Specialist and want to contribute to a company committed to improving healthcare, we encourage you to apply.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Maribeth Mockovak on +XX XXXX XXXX (NS phone number)

スキル・資格

A successful SCM Import Operation Specialist should have:

- 3 years or more experience in international logistics management
- 3 years or more practical experience in supply chain related work (purchasing / production planning / inventory management / etc.)
- Communication skills and cooperation in interpersonal negotiations and collaboration
- Fluent Japanese, Business level English communication skills
- Experience using ERP (SAP / Microsoft Dynamics AX is preferable)

会社説明

Our client is a globally recognized, large organization in the life science industry. They are known for their innovative solutions and commitment to improving healthcare worldwide.
