募集要項

The Business AnalyticsAnalytics Lead will manage commercial forecasting and deliver predictive analyticsanalytics to senior leadership, working with cross-functional teams to enhance brand performance and marketing effectiveness. Expertise in pharmaceutical forecasting, data science, and analyticsanalytics tools is essential to drive strategic insights and support upcoming product launches.

Client Details

- A global leader in healthcare data analytics and consulting, leveraging extensive datasets-including pharmaceutical sales and real-world data-to deliver strategic insights to pharmaceutical companies and healthcare stakeholders. The company fosters a collaborative environment emphasizing knowledge transfer and professional development.

Description

- Lead consulting projects analyzing pharmaceutical sales data (DDD data) to drive strategic recommendations.

- Manage client communication, project progress, and team development.

- Develop innovative services addressing shifts in disease structures, information provision, and payer/provider needs.

- Support the long-term growth of the team through mentoring and personnel development.

Job Offer

- Engage in multiple high-priority projects across leading pharmaceutical companies.

- Develop expertise in data-driven consulting and strategic market insights.

- Opportunity to take on project and people management responsibilities.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Ed Marsden on +813 6832 8981.

スキル・資格

- Experience in pharmaceutical marketing, commercial excellence, or data-driven commercial planning.

- Consulting experience delivering data analyticsanalytics and data science-based services.

- Strong analyticalanalytical skills and understanding of pharmaceutical industry processes.

- Excellent communication, commitment to clients, and proactive problem-solving skills.

- Passion for transforming and contributing to the healthcarehealthcare industry.

会社説明

Multinational Pharmaceutical company, with wide portfolio of assets covering multiple therapeutic areas
